

## Team Involvement in Demonstration

|              |                                               |
|--------------|-----------------------------------------------|
| Date         | 06 July 2026                                  |
| Project Name | Credit Card Approval Prediction System        |
| Prepared By  | Joyal Kumar, Keerthi, Yasawini, Nasir, Harika |

This document records the active participation and roles of each team member during the project demonstration for the Credit Card Approval Prediction system.

*Note: role/section assignments below are a reasonable default split based on the project's sprint plan - please correct any name, section, or rating that doesn't match what actually happened at your demo.*

| S.No | Team Member Name | Role in Demo          | Section Presented                                | Contribution Summary                                                                                                                                                                            | Participation (Active / Passive) |
|------|------------------|-----------------------|--------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| 1    | Joyal Kumar      | Team Lead / Presenter | Project introduction & model training/evaluation | Introduced the problem statement, walked through data preprocessing decisions, and explained how Logistic Regression, Decision Tree, and Random Forest were compared to select the final model. | Active                           |
| 2    | Keerthi          | Presenter             | Data cleaning & feature engineering              | Explained how missing values and duplicates were handled, and how categorical features were encoded and merged across the two datasets.                                                         | Active                           |
| 3    | Yasawini         | Presenter             | Frontend (application form) demo                 | Walked through the applicant-facing form, showing how a user enters personal and financial details to request a prediction.                                                                     | Active                           |
| 4    | Nasir            | Presenter             | Backend & prediction flow demo                   | Demonstrated the Flask /predict route end-to-end, showing how form data is converted into model features and returns a Good/Bad Customer result.                                                | Active                           |
| 5    | Harika           | Presenter             | Results walkthrough & Q&A                        | Presented sample prediction outcomes and fielded audience questions on model accuracy and limitations.                                                                                          | Active                           |
| 6    | -                | -                     | -                                                | -                                                                                                                                                                                               | -                                |

### Team Coordination Notes

| Aspect                                 | Details                              |
|----------------------------------------|--------------------------------------|
| Team Leader / Coordinator              | Joyal Kumar                          |
| Overall Team Coordination Rating (1-5) | 5 - demo ran smoothly with no issues |
| Any issues during demo                 | None reported                        |
| How issues were resolved               | Not applicable - no issues arose     |
